

03/30/2023

Dear Clean Air Zone team,

I am writing this letter to express my sincere appreciation for the Clean Air Zone Green NextGen Bio Air Purifier that you have developed.

This air purifier has made a significant difference in the air quality in my office as well as in my patient's homes who suffered from Allergies, greatly impacting the health and well being of my patients and staff.

As a health care professional and primarily as a physician specializing in Allergy and Immunology, I am aware of the dangers of indoor air pollution on our immune system and particularly in patients suffering from allergies. As a result and due to a high unmet need, I have been searching for a solution that is not only very effective but also environmentally friendly. Your Green Bio Air Purifier has exceeded my expectations and has been a game-changer for me and my Patients.

Since installing the air purifier, the air quality in my office has significantly improved. The reduction and elimination of pollutants that were contributing to poor indoor air quality have resulted in everyone feeling much better, more energized, present and engaged, and healthier.

The innovative green technology used in your air purifier, which uses natural biology to deal with biological issues, is truly impressive. This approach is both sustainable and eco-friendly, which aligns with my values and concerns for the environment. The maintenance of the air purifier is also incredibly simple, and I no longer worry about disposing of dirty filters or other hazardous waste.

I am incredibly grateful for the positive impact that your Clean Air Zone Purifier has had on my office. It is reassuring to know that we are breathing in clean, pure air without harming the environment. I am confident that the Clear Air Zone Purifier is making a positive impact on my patients suffering from allergies and improving their overall quality of life. I highly recommend your air purifiers to anyone who values their health and the environment.

Thank you for developing such an innovative and eco-friendly air purifier. Your product has exceeded my expectations, and I look forward to my continued use benefiting my patients in the future.

Sincerely,

A handwritten signature in black ink, appearing to read 'Alan Kaufman'.
